

Project Name: *Flood Management Integration into CWP*

Sponsor:	<i>Kamyar Guivetchi, Paul Massera</i>
Project Mgr:	<i>Terri Wegener</i>
Charter Version #:	<i>Version # 1</i>
Updated by:	<i>Hoa Ly</i>
Approved By:	
Approval Date:	

Project Objective Statement:

Integrate and Incorporate flood management in California Water Plan Update 2013.

Strategic Fit:

FloodSAFE and Water Management Integration Initiative

Customer:

Kamyar Guivetchi and Gary Bardini (Director, Legislator), and Stakeholders

Customer Benefits:

- *Be able of utilized flood information for integration of water management.*
- *Outline opportunities for partnership for integrate water management*

Successful Completion Criteria:

A document providing valuable information for discussion and prompting further action to integrate water management

Project Deliverables:

- 1. Draft Section of Report*
- 2. Final Draft Section of Report and Appendix*

Start Date:	<i>2010</i>
Estimated End Date:	<i>2013</i>

Triple Constraint Trade-off:

Resources	N	Select a different flexibility letter for each constraint. Flexibility letter choices are: N = Not Flexible S = Somewhat Flexible M = Most Flexible
Schedule	M	
Scope	S	

Major High-Level Milestones

Milestone	Planned	Actual
<i>1. Charter</i>	<i>Nov 2011</i>	
<i>2. Draft Section</i>	<i>2012</i>	
<i>3. Final Section</i>	<i>2013</i>	
<i>4.</i>		
<i>5.</i>		
<i>6.</i>		

Project Core Team Members

Team Member	Role
<i>Terri Wegener</i>	<i>Program Manager</i>
<i>Hoa Ly</i>	
<i>Regional Coordinator</i>	
<i>Ricardo Pineda or staff</i>	

Risks:

*Statewide Flood Management Planning Effort is delayed
And Flood Risk Characterization information is unavailable.*

Caucus staff not available to assist.

Current Issues:

None

Project Background:

Proposition 84 provides DWR funding to develop an economically viable rehabilitation plan for flood management that extends beyond the Central Valley. To better understand future funding needs, we need to understand where the flood risk areas are throughout the State. The Statewide Integrated Flood Management Planning efforts will account and document the needs and opportunities for flood integration in different regions throughout the State. The Statewide Integrated Flood Management Planning Program will also include integration of flood into the next California Water Plan Update 2013.

Dependent Projects:

Statewide Flood Management Planning Program

Project Scope:

In Scope:

Use information developed from SFMP Recommendation Report effort.

Out of scope:

Gather new flood technical data or performing hydraulic analysis.

Assumptions and Constraints:

Use information from SFMP to draft section of the CA Water Plan Update 2013 and appendix

Project Budget:	
Funding Source:	<i>Proposition 84.</i>
